

Marley Pipe Systems (Pty) Ltd. Reg. No. 1991/003365/07

MARLEY PIPE SYSTEMS' QUALITY AND ENVIRONMENTAL POLICY STATEMENT

As Managing Director of Marley Pipe Systems (Pty) Ltd., it is my policy that Marley Pipe Systems a manufacturer and supplier of Pipe Systems, will operate a quality management system in terms of the ISO 9001:2008 and ISO 14001:2004 codes of practice and will endeavor to continuously improve its effectiveness, I have appointed the Technical Manager as the Management Representative.

In order to achieve this, the management team has been given authority and responsibility to ensure that this policy is communicated and understood, within the organization, and to identify affected external parties, as required by the codes of practice, Such communication will include, in whatever form or method the commitment of meeting internal and external customer quality and environmental requirements as well as any applicable statutory and regulatory requirements in each function.

My personal commitment to quality and the prevention of pollution is total, and is demonstrated by our clear objective to adhere to all the requirements of ISO 9001:2008 and ISO 14001:2004 in a sincere and ongoing manner.

We will endeavor to set reasonable Quality as well as Environmental Objectives and Targets, which we will review and amend at intervals, decide on by myself as MD in line with Aliaxis requirements. This policy will be reviewed at Management Review Meetings. The review process will be with the aim of striving for continual improvement of the Quality and Environmental Management System and that Marley Pipe Systems is managed in a manner that will ensure that it is profitable. That may entail the institution of productivity and environmental improvement projects when the need is identified.

Marley Pipe Systems will maintain the existing cooperation with the SABS in producing products that meet SABS requirements as per the mark scheme, where applicable; and with Customers (and other product certification bodies) involvement where it is not applicable.

HEALTH, SAFETY AND ENVIRONMENTAL POLICY

Marley Pipe Systems (Pty) Limited's management acknowledge that one of our prime responsibilities is to provide and maintain, as far as reasonably practicable, a work environment that is safe and without risk to the health of all employees and to reduce to a minimum the impact of its operations on the environment.

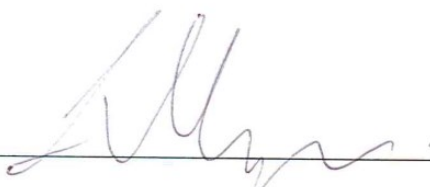

In fulfilling this commitment, we will provide and maintain a healthy and safe work environment as indicated by acceptable organisation practices and compliance with legislative requirements. We will strive to eliminate any foreseeable hazards which may result in personal injuries, illnesses, fires, security losses, damage to property and environmental pollution through a process of continual improvement of the internal SHE Management System.

Accidental loss can be controlled through good management in combination with active employee involvement. Risk management including safety, health and environment is the direct responsibility of all managers and employees alike.

All management functions, including line and associated management will comply with requirements as they apply to the design, operation and maintenance of facilities and equipment.

All employees will perform their jobs properly and safely in accordance with established procedures and operating philosophy.

The effectiveness of our Safety, Health and Environmental Policy will be reviewed regularly to ensure that it remains relevant and appropriate to Marley Pipe Systems (Pty) Limited's philosophy.
